

Connecting iPad to UNOSECURE

iOS devices, such as the iPhone, iPod touch, and iPad, are equipped with Wi-Fi (wireless) network connectivity. Please use the following steps to connect to UNO's campus-wide **unosecure** wireless network.

- 1. On your iOS device, go to the Home screen and open Settings.
- 2. Under Settings, open Wi-Fi.
- 3. In the Wi-Fi Networks screen, check that Wi-Fi is **ON**. If not, tap the appropriate OFF/ON toggle.

Result: Available wireless networks will be listed under **Choose a Network**.

Note: A padlock icon by a network name indicates a password is needed to access that network.
