- *Areas of concentration must fulfill:
- background requirement: 5401 & 5501 if not already taken for B.S.
- *breadth* requirement: three 6000-level courses from three different concentration areas
- *depth* requirement: three courses (at least two 6000-level) from one concentration area different from the breadth areas chosen

Areas of concentration:

- 1. Theoretical Computer Science and Programming Languages
- 2. Systems and Networks
- 3. Information Assurance
- 4. Software Systems
- 5. Database Systems and Distributed Application
- 6. Computer Graphics and Visual Computing
- 7. Artificial Intelligence

Consult the department website for the current list of courses offered and their corresponding areas.
